SINCE 1893

Navel Oranges

California navels are a classic! They are round in shape with a unique bright orange appearance. Navels have a unique navel-like formation at their blossom end. They have a thick skin, yet their sections are easy to peel apart. They are oh so juicy with a rich, sweet flavor and have no seeds. They are wonderful in many recipes. And Navels are perfect for snacking too!

AVAILABILITY: November - June (Peak: February - March)
